PROFESSIONAL EXPERIENCE

Freelance   Nov 2024 – Present
Frontend Developer

Constructed and exported responsive, user-centered websites and applications with modern frameworks. Emphasis on React, Vite, and Tailwind CSS with attention to clean component-driven design, responsive layouts, and practical client projects.

Luna D.O.O 🔗   Feb 2025 – Present
IT Engineer

Took over the entire IT department with one other colleague within four months of being hired following the resignation of the IT Manager who built the company's infrastructure from scratch. Rapidly learned and gained expertise in ERP systems, server & network administration, virtualization, and data security.

Responsibilities & Achievements:

- **ERP & Business Applications:**

Managed MISPOS (POS) & MIS2Open (accounting, finance, sales, loyalty) for 20+ stores across 4 countries.

- **Server Infrastructure & Backup**

Managed servers for 200+ users with RAM, storage, workloads, and VMs performing at optimum levels.
Managed entire backup and recovery processes, software licensing management, and compliance.

- **Virtualization & Storage**

Managed VMware infrastructures (vCenter, ESXi, vSphere) and Veeam Backup systems.
Managed NAS solutions (QNAP & Synology) for distributed data storage and disaster recovery.

- **Network Administration**

Managed company DNS domains and zones.
Provisioned and secured company Wi-Fi networks and Mikrotik routers (VPN, routing, threat blocking).

- **Security & Monitoring**

Provisioned and monitored endpoint protection and email guard systems. Secured and provisioned company e-mail servers.

PROJECTS

Portfolio 🔗

Clean single-page React app created with Vite and Tailwind v3. Provides custom Tailwind configuration, dark/light theme toggle, lucide-react icons, modular design layouts, and GitHub Actions workflow for automatic build.

Mane's Barbershop 🔗

Responsive barbershop website created with React, Vite, Tailwind CSS, and Animate.css. Includes interactive booking form, service highlight, and smooth page transitions.

Rok Šped D.O.O. 🔗

Re-design of website for freight forwarding & transport company. Gave a new, responsive, and interactive layout.

DJ Event Planner 🔗

Event management app with CRUD features (add, view, edit, delete events), local storage, calendar view, and live updates.

Image-Searcher 🔗

Unsplash API integration for dynamic search and responsive gallery.

Jump & Run Game 🔗

Browser game with FPS counter, scoring system, and custom graphics.

EDUCATION

ITAcademy by LinkGroup 🔗   2024
Certified Javascript Developer

Gymnasium Smederevo   2015
Natural Sciences and Mathematics Track
